

LawnDoodles Services

April 2017

WE WILL:

- Always arrive in the LawnDoodles marked vehicle and all scoopers will be in uniform.
- Arrive on your scheduled Scoop Day with clean tools and shoes/boots.
- Clean our tools over the debris pan when we're finished, to keep any overspray from the disinfectant contained.
- Promptly respond to any questions or concerns that you have.
- Double check your gate to make sure it's secured.
- Inform you of any observations/changes to your pet's waste.
This service is provided as an untrained observation only. Only your veterinarian can properly diagnose or treat these symptoms. Never disregard veterinary advice or delay in seeking it as a result of information provided. If your pet is showing any signs of distress or you suspect your pet is ill, CONTACT YOUR VETERINARIAN.
- Treat your pets with kindness and respect.
- Thoroughly scoop your designated area and haul away the waste.

WE WON'T:

- Enter your property through a gate that is difficult to open.
- Enter your property if there is any chance of the pets getting out.
- Enter your property if a dog is overly aggressive.
- Pick up pine cones and/or sticks - they make holes in our bags.
- Give your pets any treats unless you approve.
- **LawnDoodles will not be able to thoroughly scoop your yard if there is a large accumulation of leaves, debris, or long grass.**
